The screenshot shows a web browser window at [www.windows-movie-maker.org](http://www.windows-movie-maker.org). The page features a blue header with the text "Windows Movie Maker" and the tagline "It's easy to make your own movie!". Below the header is a navigation menu with links for Home, Product, Download, Support, Tutorials, and Language: English. The main content area includes a large image of a film strip, a "Free Download" button with a green arrow icon, and a "Download For Free!" text. A "Documentation" section lists several links: "How to download & install Windows Movie Maker?", "How to make a slideshow video of my image collections?", and "How to upload my movie to YouTube or".

A "Duplicate download link" dialog box is open in the foreground. It displays the URL `http://www.windows-movie-maker.org/download/windows-movie-maker-2016.exe` and the message: "This file already exists in your download list. You may choose one of the following options, or press Cancel button to skip the download of this file". The dialog offers three radio button options: "Add the duplicate with a numbered file name", "Add the duplicate and overwrite the existing file", and "If existing file is complete, show download complete dialog; otherwise resume it." (which is selected). There are "OK" and "Cancel" buttons at the bottom. A checkbox at the bottom left is labeled "Remember my selection and don't show this dialog again. You may change it in IDM Options -> Downloads at a later time."
